Commission structure:

20.1 Commissions are paid out as a percentage of the Net Revenue.

a) The Net Revenue (applying to all products) is defined as:

= Bets – Wins – 25% Admin Fee – Bonuses – Jackpot Contributions - Chargebacks

The Net Revenue Share percentage is determined by the amount of new depositing customers referred by the affiliate within the month the commission is paid for.

Number of New Depositing Customers Affiliate Share

0-5 25%

6-10 30%

11-20 35%

21-40 40%

41+ 45%

The amount of commission earned when reaching a tier will apply to all customers, also those referred to reach that tier.

1 The Admin Fee is a value which contains the License Fee, Game Provider Fee and Platform Fee.

2 Bonuses in this case means Paid Bonuses to the customer, not Granted Bonuses. The difference is that a Paid Bonus is a type of bonus money where the customer has actually reached the wagering requirement and/or physically received the funds on his/her real money wallet.

20.2 In the event of a Qualified Player win money and the Revenue Share in a particular month becomes negative, a negative balance will not be carried forward into the following month or into successive months, and there shall be no deductions to such successive months Revenue Share (exception: individual players who win more than EUR 5000 in a single month are excluded from the "no negative carry over" rule. Such players are isolated until they become 'positive' players again.).
